

CUSTOMER CARE USAGE DASHBOARD

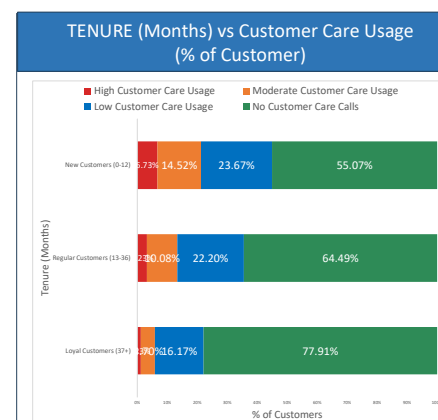

Understanding Key Factors of Customer Support Burden

\$ High Revenue Customers are more likely to call customer care

\$ Customers experiencing higher dropped calls frequency are significantly more likely to contact customer care and no calls decreases

\$ New customers tend to call customer care calls frequently compared to regular and loyal customers

Recommendations

- Internet reliability must be improved to reduce customer concerns such as dropped calls
- Strengthen onboarding and provide better experience for new customers
- Prioritize high value customers with proactive support and faster resolutions
